

Always Fresh, Never Precooked - Since 1986!

Lilly's Story

Always Fresh, Never Precooked – Since 1986!

"Mama" Lilly with her son, Antonio (1986)

Passion, Pride & Pasta

Boston's historic North End is a mecca for Italian cuisine, and Lilly has been its go-to pasta supplier for nearly 40 years.

The D'Alelio family arrived in the U.S. from Genoa, Italy with little but the clothes on their backs and a desire to share authentic, wholesome fresh pasta with the world.

"Mama" Lilly opened her modest shop in 1986 and began to approach local chefs with her fresh pasta and creative ravioli. Once they tasted her cooking, it spoke for itself: Lilly's Fresh Pasta soon became Boston's most beloved pasta supplier.

Every small batch is still held to the same quality standards that have characterized Lilly's Fresh Pasta for decades. Our pasta remains one-of-a-kind thanks to the pride and passion you can taste in every bite.

★ Always Fresh, never precooked!

Lilly's Fresh Pasta is as close to serving fresh, housemade pasta as you can get without rolling out the dough yourself.

★ Simple, high-quality ingredients.

Our pasta is made from 100% non-GMO, chemical-free flour, grade A eggs, and filtered water - that's it! Plus, our fillings are made fresh in our own kitchen using premium cheeses, quality meats, and fresh vegetables.

★ One-of-a-kind texture.

We are one of few manufacturers still using traditional, front-to-back bronze dies. The resulting dough is more porous, giving it a spongy, hearty "bite" that absorbs flavors and sauces beautifully.

Lilly's Fresh Pasta has been producing high-quality pasta products since 1986. Our commitment to real, fresh ingredients backs our 100% satisfaction guarantee.

Lilly's Fresh Pasta now produced with 100% non-GMO, chemical-free flour!

Why Chemical-Free?

Millions of people struggle with digestive discomfort, bloating, and food intolerances. Studies and conversations are increasingly highlighting how gut health may be affected by glyphosate, a commonly used herbicide. This chemical can linger in grains and other crops, potentially disrupting our digestive systems.

Lilly's Fresh Pasta is committed to creating chemical-free fresh pasta—because we care about what you eat and how it makes you feel. Your food should nourish you, not harm you. Together, we can make a difference, one bowl of pasta at a time!

Features and Benefits

- ✓ Produced with high-quality, unbleached wheat.
- ✓ Specially formulated for ideal consistency and elasticity.
- ✓ More durable with the right “bite” and smoothness.
- ✓ Promotes a healthy gut microbiome.

Fresh vs. Precooked Pasta

Is precooked pasta costing you dough?

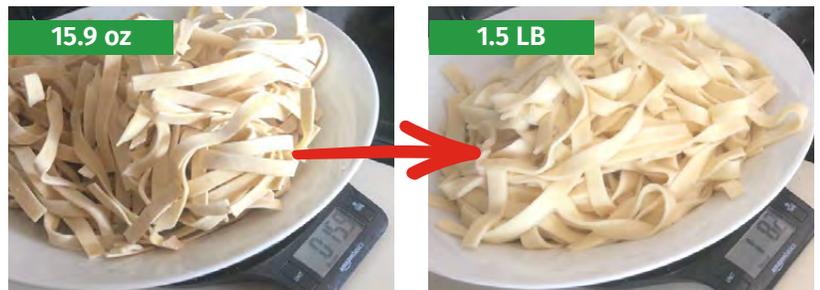

Lilly's Fresh Pasta is committed to providing always fresh, never precooked pasta. While fresh, raw pasta may seem to cost more per pound — it's not that simple.

Fresh pasta increases in yield 30% to 50% when cooked. When you buy precooked pasta, this water weight is already added (and you pay for that water in your cost per pound).

Let's take a closer look...

One pound of fresh pasta, when cooked, yields 1.5 pounds pasta (50% increase).

Let's see that again... 5 ounces of raw fusilli yields 7 ounces cooked (40% increase).

Now let's go big! An 8 pound case of tortellini yields 12 pounds when cooked (50% increase).

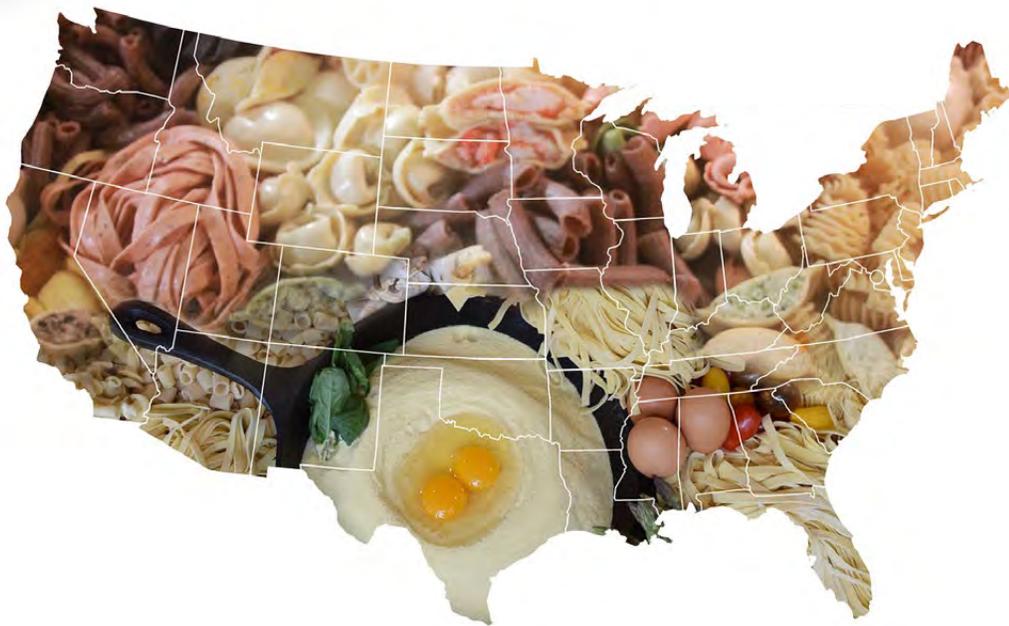

The right choice is Lilly's Fresh Pasta!

Smart chefs know **it's not just about case price.** When balancing food costs, it's important to think in terms of portions. After all, you don't serve pounds of pasta — you sell plates! Let's say you menu an 8 ounce portion of cooked tortellini at \$12.99. Consider the portions yielded by that 8LB case of fresh-frozen tortellini versus a precooked case. **Would you pay \$12 more now to have almost \$100 more in your pocket later, while also serving a better-tasting product?** The right choice is easy! Choose Lilly's Fresh Pasta—always fresh, never precooked, premium pasta, gnocchi, ravioli, tortellini, and more!

Always Fresh, Never Precooked – Since 1986!

Fresh Pasta is More Than a Promise... It's Our Passion!

Lilly's Fresh Pasta is proud to serve food service customers far and wide through our network of distribution partners. Today our fresh pasta base spans 48 states plus Puerto Rico, and it's growing every day! Please contact us to find out where you can buy wholesale fresh pasta local to you.
